### Question 1

Paragraph 1.7 summarises the objective of the Board’s research project. Paragraph IN9 summarises the Board’s preliminary views. Paragraphs IN50–IN53 explain that these preliminary views are a package and those paragraphs identify some of the links between the individual preliminary views.

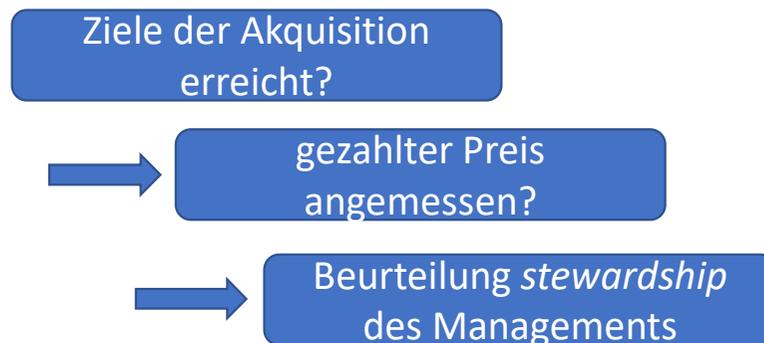

The Board has concluded that this package of preliminary views would, if implemented, meet the objective of the project. Companies would be required to provide investors with more useful information about the businesses those companies acquire. The aim is to help investors to assess performance and more effectively hold management to account for its decisions to acquire those businesses. The Board is of the view that the benefits of providing that information would exceed the costs of providing it.

- (a) Do you agree with the Board’s conclusion? Why or why not? If not, what package of decisions would you propose and how would that package meet the project’s objective?
- (b) Do any of your answers depend on answers to other questions? For example, does your answer on relief from a mandatory quantitative impairment test for goodwill depend on whether the Board reintroduces amortisation of goodwill? Which of your answers depend on other answers and why?

## Verbesserung der Angaben zu Akquisitionen

### Hintergrund

- IFRS 3.B64(d) sieht Angabe der primären Ziele einer Akquisition vor  
→ in Praxis nicht für Beurteilung der weiteren Performance der Akquisition geeignet
- zusätzliche Informationen zur Performance des erworbenen Unternehmens nach der Akquisition gefordert (*subsequent performance*)

**What is subsequent performance of an acquisition?**

The term 'subsequent performance of an acquisition' refers in this Discussion Paper to the performance after acquisition of the acquired business together with the performance of any other part of the acquirer's business affected by the acquisition.

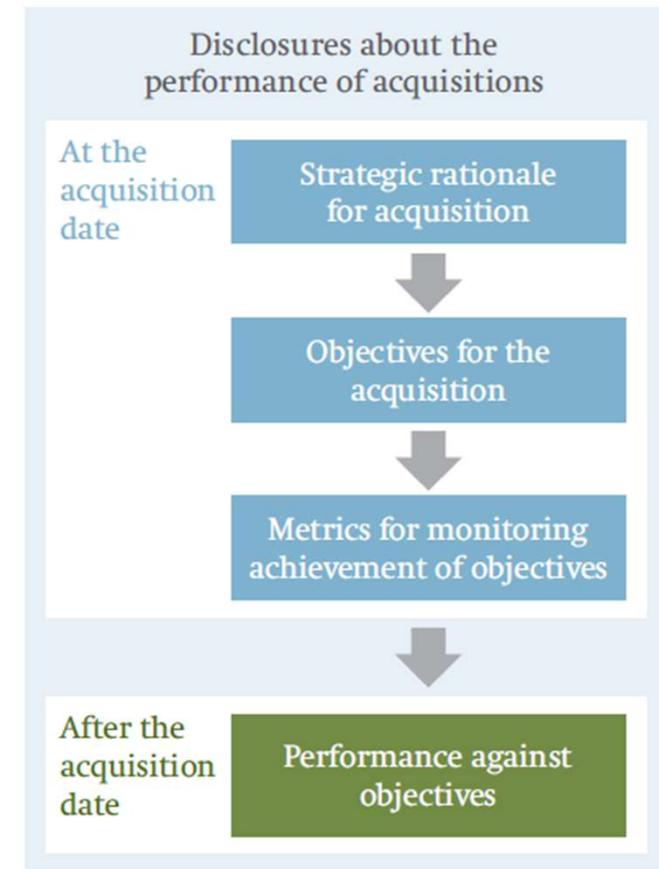

The performance of other parts of the acquirer's business may be affected by the acquisition if synergies arise because of the acquisition.

If the acquired business is integrated with the acquirer's business, information about the subsequent performance of the acquisition used by management may be based on the combined business.

#### Question 2

Paragraphs 2.4–2.44 discuss the Board’s preliminary view that it should add new disclosure requirements about the subsequent performance of an acquisition.

- (a) Do you think those disclosure requirements would resolve the issue identified in paragraph 2.4 - investors’ need for better information on the subsequent performance of an acquisition? Why or why not?
- (b) Do you agree with the disclosure proposals set out in (i)–(vi) below? Why or why not?
  - (i) A company should be required to disclose information about the strategic rationale and management’s (the chief operating decision maker’s (CODM’s)) objectives for an acquisition as at the acquisition date (see paragraphs 2.8–2.12). Paragraph 7 of IFRS 8 *Operating Segments* discusses the term ‘chief operating decision maker’.
  - (ii) A company should be required to disclose information about whether it is meeting those objectives. That information should be based on how management (CODM) monitors and measures whether the acquisition is meeting its objectives (see paragraphs 2.13–2.40), rather than on metrics prescribed by the Board.

#### Question 2

- (iii) If management (CODM) does not monitor an acquisition, the company should be required to disclose that fact and explain why it does not do so. The Board should not require a company to disclose any metrics in such cases (see paragraphs 2.19–2.20).
- (iv) A company should be required to disclose the information in (ii) for as long as its management (CODM) continues to monitor the acquisition to see whether it is meeting its objectives (see paragraphs 2.41–2.44).
- (v) If management (CODM) stops monitoring whether those objectives are being met before the end of the second full year after the year of acquisition, the company should be required to disclose that fact and the reasons why it has done so (see paragraphs 2.41–2.44).
- (vi) If management (CODM) changes the metrics it uses to monitor whether the objectives of the acquisition are being met, the company should be required to disclose the new metrics and the reasons for the change (see paragraph 2.21).

#### Question 2

- (c) Do you agree that the information provided should be based on the information and the acquisitions a company's CODM reviews (see paragraphs 2.33–2.40)? Why or why not? Are you concerned that companies may not provide material information about acquisitions to investors if their disclosures are based on what the CODM reviews? Are you concerned that the volume of disclosures would be onerous if companies' disclosures are not based on the acquisitions the CODM reviews?
- (d) Could concerns about commercial sensitivity (see paragraphs 2.27–2.28) inhibit companies from disclosing information about management's (CODM's) objectives for an acquisition and about the metrics used to monitor whether those objectives are being met? Why or why not? Could commercial sensitivity be a valid reason for companies not to disclose some of that information when investors need it? Why or why not?

### Konsultation zu „Verbesserung der Angaben zu Akquisitionen“

#### Question 2

- (e) Paragraphs 2.29–2.32 explain the Board’s view that the information setting out management’s (CODM’s) objectives for the acquisition and the metrics used to monitor progress in meeting those objectives is not forward-looking information. Instead, the Board considers the information would reflect management’s (CODM’s) targets at the time of the acquisition. Are there any constraints in your jurisdiction that could affect a company’s ability to disclose this information? What are those constraints and what effect could they have?

#### Question 3

Paragraphs 2.53–2.60 explain the Board’s preliminary view that it should develop, in addition to proposed new disclosure requirements, proposals to add disclosure objectives to provide information to help investors to understand:

- the extent to which an acquisition is meeting management’s (CODM’s) objectives for the acquisition.

Do you agree with the Board’s preliminary view? Why or why not?

- to require a company to disclose:

  - when the synergies are expected to be realised;
  - the estimated amount or range of amounts of the synergies; and
  - the expected cost or range of costs to achieve those synergies; and
- to specify that liabilities arising from financing activities and defined benefit pension liabilities are major classes of liabilities.

  - Änderung IFRS 3.B64(q)

#### Question 5

IFRS 3 *Business Combinations* requires companies to provide, in the year of acquisition, pro forma information that shows the revenue and profit or loss of the combined business for the current reporting period as though the acquisition date had been at the beginning of the annual reporting period.

Paragraphs 2.82–2.87 explain the Board’s preliminary view that it should retain the requirement for companies to prepare this pro forma information.

- (a) Do you agree with the Board’s preliminary view? Why or why not?
- (b) Should the Board develop guidance for companies on how to prepare the pro forma information? Why or why not? If not, should the Board require companies to disclose how they prepared the pro forma information? Why or why not?

### Konsultation zu „Verbesserung der Angaben zu Akquisitionen“

#### Question 5

IFRS 3 also requires companies to disclose the revenue and profit or loss of the acquired business after the acquisition date, for each acquisition that occurred during the reporting period.

Paragraphs 2.78–2.81 explain the Board’s preliminary view that it should develop proposals:

- to replace the term ‘profit or loss’ with the term ‘operating profit before acquisition-related transaction and integration costs’ for both the pro forma information and information about the acquired business after the acquisition date. Operating profit or loss would be defined as in the Exposure Draft *General Presentation and Disclosures*.
  - to add a requirement that companies should disclose the cash flows from operating activities of the acquired business after the acquisition date, and of the combined business on a pro forma basis for the current reporting period.
- (c) Do you agree with the Board’s preliminary view? Why or why not?
